

No. of Functional Features Included in the Solution

Date	04 July 2026
Team ID	XXXXXX
Project Name	Emotion Support Engine
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	Real-time Conversational UI	A clean, chat-like web interface allowing users to input their feelings easily and read responses.	Streamlit Web Interface	Done	1
2	AI Emotion Analysis	Processes user text to detect emotional distress and generates a comforting, empathetic response.	Gemini AI Engine	Done	1
3	Contextual Chat Memory	Maintains the chat history within a single active session so the AI remembers the conversation flow.	Session State Manager	Done	1

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
4	Session Reset / Clear Chat	A one-click button allowing users to instantly wipe their chat history and start a fresh session securely.	Python Backend	Done	0.5
5	Multilingual Support	Leverages the AI model to understand user inputs in different languages and respond accordingly.	Gemini AI Engine	Done	0.5
6	Responsive Web Design	Ensures the application interface adapts seamlessly to both mobile phones and desktop computer screens.	Streamlit UI Framework	Done	0.5
7	Secure API Routing	Protects the backend logic by securely managing and hiding the API keys from the public-facing application.	Cloud Environment	Done	0.25

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8

Metric	Count / Value
Total Features Pending	0
Completion Percentage	100%

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Real-time Chat Interface, Responsive Web Design
2	Backend / Logic	2	Session Reset / Clear Chat, Error Handling & Fallbacks
3	Database / Storage	1	Contextual Chat Memory (Session State)
4	API / Integration	2	AI Emotion Analysis (Gemini), Multilingual Support
5	Security / Authentication	1	Secure API Routing (Hidden Keys), Anonymous Cloud Access
