Define Problem Statements (Customer Problem Statement Table) :

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A person navigating high levels of daily stress, anxiety, or emotional burnout.	Find a safe, immediate, and judgment-free space to express my feelings and receive empathetic support.	I cannot always reach out to friends, family, or afford immediate professional therapy when I need it most (like late at night).	Opening up to people can feel intimidating, and accessible mental health resources or human support aren't always available 24/7.	Isolated, overwhelmed, and stuck with my negative emotions.
