

Project Demo Planning

Date	05 July 2026
Team ID	XXXXXX
Project Name	Emotion Support Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Presenting the problem statement and introducing our AI solution.	2	[Team Member 1]
2	Architecture Overview	Explaining the Streamlit UI and Google Gemini API integration.	2	[Team Member 2]
3	Live App Demonstration	Walking through a live chat scenario (e.g., student stress) to show AI empathy and chat memory.	4	[Team Member 3]
4	Code Walkthrough	Briefly showing app.py and explaining how the API key is secured via Streamlit secrets.	2	[Team Member 4]
5	Conclusion & Q&A	Summarizing future scalability plans and answering evaluator questions.	5	Entire Team

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Highlight the need for 24/7, accessible mental health support and introduce the Emotion Support Engine as a safe space.
2	Solution Overview	Briefly explain the 3-tier architecture: User Input → Streamlit Backend → Gemini Model generation.
3	Live Feature Demonstration	Actively type a prompt into the app. Highlight the speed of the response, the empathetic tone, and the context memory working seamlessly.
4	Q&A Session	Be prepared to answer questions about API limits, data privacy (anonymous access), and the choice of Streamlit for the UI.
